

1. Create an HTML file that uses semantic tags to build a simple blog post layout with `<header>` for the blog title, `<nav>` for navigation links (Home, Explore, About), `<article>` for the main post content, and `<footer>` for copyright information.

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
  <title>Simple Blog</title>

  <style>
    *{
      margin:0;
      padding:0;
      box-sizing:border-box;
      font-family:Arial, Helvetica, sans-serif;
    }

    body{
      background:#f4f4f4;
      color:#333;
      line-height:1.6;
    }

    header{
      background:#2c3e50;
      color:white;
      text-align:center;
      padding:25px;
    }

    nav{
      background:#34495e;
      padding:12px;
      text-align:center;
    }

    nav a{
      color:white;
      text-decoration:none;
      margin:0 15px;
      font-weight:bold;
    }

    nav a:hover{
      text-decoration:underline;
    }
  </style>
</head>
<body>
  <header>
    <h1>Simple Blog</h1>
  </header>
  <nav>
    <a href="#"></a>
  </nav>
  <article>
    <h2>Simple Blog</h2>
  </article>
  <footer>
    <p>Copyright 2020</p>
  </footer>
</body>
</html>
```

```
    article{
        max-width:800px;
        margin:30px auto;
        background:white;
        padding:25px;
        border-radius:8px;
        box-shadow:0 4px 10px rgba(0,0,0,0.1);
    }

    article h2{
        margin-bottom:15px;
        color:#2c3e50;
    }

    article p{
        margin-bottom:15px;
        text-align:justify;
    }

    footer{
        background:#2c3e50;
        color:white;
        text-align:center;
        padding:15px;
        margin-top:30px;
    }
</style>
</head>
<body>

    <header>
        <h1>My Simple Blog</h1>
        <p>Sharing ideas, stories, and experiences.</p>
    </header>

    <nav>
        <a href="#">Home</a>
        <a href="#">Explore</a>
        <a href="#">About</a>
    </nav>

    <article>
        <h2>Welcome to My Blog</h2>

        <p>
            This is a simple blog post created using semantic HTML5 elements.
            Semantic tags improve the structure of a webpage, making it easier
```

```

        for browsers, search engines, and screen readers to understand the
content.
    </p>

    <p>
        In this example, the <strong>header</strong> contains the blog
title,
        the <strong>nav</strong> element provides navigation links,
        the <strong>article</strong> holds the main blog content,
        and the <strong>footer</strong> displays copyright information.
    </p>
</article>

<footer>
    <p>&copy; 2026 My Simple Blog. All Rights Reserved.</p>
</footer>

</body>
</html>

```

2. Recreate a Zomato-style restaurant listing card using semantic HTML5 tags: use <article> for each restaurant, <header> for the restaurant name, and <footer> for rating and delivery time.

```

<!DOCTYPE html>
<html lang="en">
<head>
<meta charset="UTF-8">
<meta name="viewport" content="width=device-width, initial-scale=1.0">
<title>Zomato Restaurant Card</title>

<style>
*{
    margin:0;
    padding:0;
    box-sizing:border-box;
    font-family:Arial, Helvetica, sans-serif;
}

body{
    background:#f8f8f8;
    display:flex;
    justify-content:center;
    align-items:center;
    min-height:100vh;
    padding:20px;
}

```

```
.container{
  width:100%;
  max-width:400px;
}

article{
  background:#fff;
  border-radius:15px;
  overflow:hidden;
  box-shadow:0 8px 20px rgba(0,0,0,0.15);
  transition:.3s;
}

article:hover{
  transform:translateY(-5px);
  box-shadow:0 12px 28px rgba(0,0,0,.2);
}

article img{
  width:100%;
  height:220px;
  object-fit:cover;
}

header{
  padding:18px 20px 10px;
}

header h2{
  color:#222;
  margin-bottom:5px;
}

.category{
  color:#777;
  font-size:14px;
}

.description{
  padding:0 20px 18px;
  color:#555;
  line-height:1.6;
}

footer{
  display:flex;
  justify-content:space-between;
  align-items:center;
}
```

```

padding:15px 20px;
border-top:1px solid #eee;
background:#fafafa;
}

.rating{
background:#267E3E;
color:white;
padding:6px 12px;
border-radius:8px;
font-weight:bold;
}

.delivery{
color:#555;
font-weight:bold;
}

@media(max-width:500px){
header h2{
font-size:22px;
}

footer{
flex-direction:column;
gap:10px;
}
}
</style>

</head>
<body>

<div class="container">

  <article>

    

    <header>
      <h2>La Pino'z Pizza</h2>
      <p class="category">Pizza • Fast Food • Italian</p>
    </header>

    <section class="description">
      Enjoy freshly baked pizzas, cheesy garlic bread,

```

```

        pasta, and delicious desserts delivered hot and fresh.
    </section>

    <footer>
        <span class="rating">🌟 4.5</span>
        <span class="delivery">🚗 30 mins</span>
    </footer>

</article>

</div>

</body>
</html>

```

3. Build a Flipkart-style product page section with semantic tags: use <header> for the product title and image, <nav> for category breadcrumbs, <article> for product details and description, and <footer> for offers or warranty info.
Hint: Focus on the correct use of tags for structure, not just visual layout.

```

<!DOCTYPE html>
<html lang="en">
<head>
<meta charset="UTF-8">
<meta name="viewport" content="width=device-width, initial-scale=1.0">
<title>Flipkart Product Page</title>

<style>
*{
    margin:0;
    padding:0;
    box-sizing:border-box;
    font-family:Arial, Helvetica, sans-serif;
}

body{
    background:#f1f3f6;
    padding:30px;
}

.container{
    max-width:1000px;
    margin:auto;
    background:#fff;
    border-radius:10px;
    box-shadow:0 5px 15px rgba(0,0,0,.1);
    overflow:hidden;
}

```

```
/* Breadcrumb */
nav{
  background:#fafafa;
  padding:15px 25px;
  border-bottom:1px solid #ddd;
  font-size:15px;
}

nav a{
  text-decoration:none;
  color:#2874f0;
}

nav span{
  color:#666;
  margin:0 6px;
}

/* Product Header */
header{
  display:flex;
  flex-wrap:wrap;
  gap:25px;
  padding:25px;
  border-bottom:1px solid #eee;
}

header img{
  width:280px;
  border-radius:8px;
}

.product-title{
  flex:1;
}

.product-title h1{
  color:#212121;
  margin-bottom:12px;
}

.price{
  color:#388e3c;
  font-size:28px;
  font-weight:bold;
}
```

```
.rating{
  display:inline-block;
  margin-top:10px;
  background:#388e3c;
  color:#fff;
  padding:5px 10px;
  border-radius:5px;
}

/* Product Details */
article{
  padding:25px;
}

article h2{
  margin-bottom:15px;
  color:#333;
}

article p{
  color:#555;
  line-height:1.7;
  margin-bottom:20px;
}

article ul{
  margin-left:20px;
  color:#444;
}

article li{
  margin-bottom:10px;
}

/* Footer */
footer{
  background:#f8f8f8;
  border-top:1px solid #ddd;
  padding:20px 25px;
}

footer h3{
  color:#2874f0;
  margin-bottom:10px;
}

footer ul{
  margin-left:20px;
```

```

        color:#444;
    }

    footer li{
        margin-bottom:8px;
    }

    @media(max-width:768px){

    header{
        flex-direction:column;
        align-items:center;
        text-align:center;
    }

    header img{
        width:100%;
        max-width:320px;
    }

    }
</style>

</head>
<body>

<div class="container">

    <!-- Category Breadcrumbs -->
    <nav>
        <a href="#">Home</a>
        <span>&gt;</span>

        <a href="#">Electronics</a>
        <span>&gt;</span>

        <a href="#">Mobiles</a>
        <span>&gt;</span>

        <strong>Smartphone</strong>
    </nav>

    <!-- Product Header -->
    <header>

        

```

```
<div class="product-title">
  <h1>Samsung Galaxy S25 5G</h1>

  <p class="price">₹74,999</p>

  <div class="rating">
    ⭐ 4.6 / 5
  </div>
</div>

</header>

<!-- Product Details -->
<article>

  <h2>Product Details</h2>

  <p>
    The Samsung Galaxy S25 5G features a powerful processor,
    stunning AMOLED display, advanced AI-powered camera system,
    long-lasting battery, and ultra-fast 5G connectivity for
    a premium smartphone experience.
  </p>

  <h2>Key Features</h2>

  <ul>
    <li>6.7-inch AMOLED Display</li>
    <li>12 GB RAM & 256 GB Storage</li>
    <li>50 MP Triple Camera</li>
    <li>5000 mAh Battery</li>
    <li>5G Connectivity</li>
  </ul>

</article>

<!-- Offers & Warranty -->
<footer>

  <h3>Offers & Warranty</h3>

  <ul>
    <li>🎁 10% Instant Discount on Select Bank Cards</li>
    <li>🎁 No Cost EMI Available</li>
    <li>🎁 1 Year Manufacturer Warranty</li>
    <li>🎁 7 Days Replacement Policy</li>
  </ul>
```

```
</footer>

</div>

</body>
</html>
```

Given a non-semantic HTML snippet for a movie review (using only <div> and), refactor it to use appropriate semantic tags like <header>, <nav>, <article>, and <footer> for improved accessibility and SEO.

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">

        <section>
            <h3>Review</h3>

            <p>
                <strong>Inception</strong> is a visually stunning science-
fiction
                thriller directed by Christopher Nolan. The film combines
                breathtaking action, emotional storytelling, and a complex
                dream-within-a-dream concept that keeps viewers engaged from

```

```
        beginning to end.
    </p>

    <p>
        With outstanding performances, excellent visual effects,
        and an unforgettable soundtrack, it is widely regarded as
        one of the greatest modern science-fiction films.
